

a. Drug Development and Optimization

1 Drug repurposing

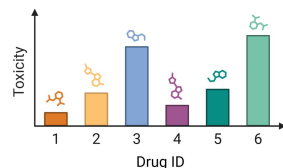

2 DDI & DTI Prediction

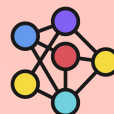

3 Virtual Screening & Drug Recommendation

4 Toxicity & ADRS

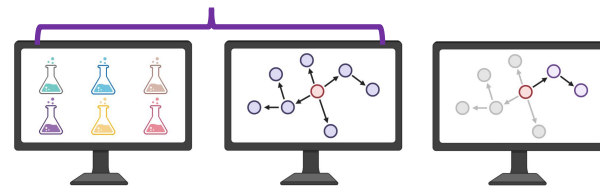

SciKGs in Biology & Chemistry

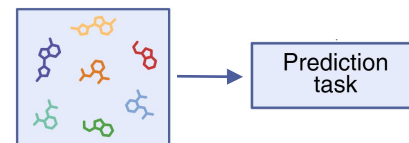

c. Chemical Reaction and Synthesis

1 Chemical Reaction Prediction

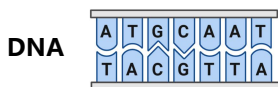

2 Chemical Synthesis Pathway Optimization

3 Molecular property prediction

1 Genome

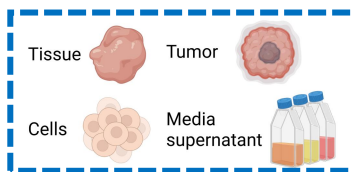

2 Proteome

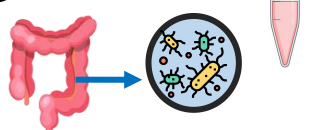

3 Transcriptome

4 Metabolome

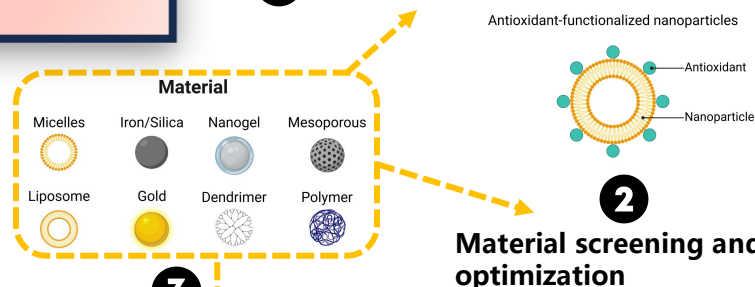

5 Microbiome

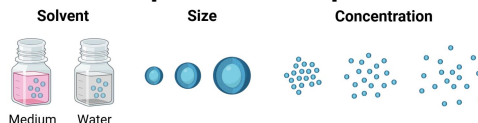

b. Omics Profiling and Analysis

1 New Material Design

Material performance prediction

d. Materials Design and Discovery
